Conference Organizers

■ **SEAS - Society for South-East Asian Studies / Gesellschaft für Südostasienwissenschaften** was founded in Vienna, Austria in 2005 by established scholars, researchers and graduate students with a specific scientific and cultural interest in South-East Asia. Its members are eager to strengthen and deepen the interdisciplinary and intercultural research on South-East Asia as well as to develop a stand for this rather underrepresented region in Austria. Their endeavour is to offer a proper platform for an intercultural and multidisciplinary exchange of information and ideas. SEAS aims to provide educational and networking services to researchers, students and the interested public. Furthermore its members are interested in enhancing the popularity of South-East Asian countries in Austria, crossing and reducing borders between cultures and peoples through fostering an intercultural dialogue.
